European Association for Gestalt Therapy  
Established 1985

An invitation to explore the time and space where psychotherapy crosses the social and political paths – not looking away from what is happening around us:

- ▶ How does social and political life impact us in our work?
- ▶ What happens when we move out of the therapy room?
- ▶ What can we learn from each other (sharing experiences and ideas)
- ▶ How to create a support ground for social activists, volunteers and professionals who witness situations where human rights are violated?
- ▶ How to find hope in hopeless circumstances?

Experiential workshops, Gestalt experiments, lectures offering a meta perspective enriched by meetings with journalists, writers, lawyers, field workers.
